Financial performance

Andy MacKinnon

Powerful financial model and transformational acceleration

Strong Top Line Growth

- ✓ Triple digit revenue growth to £368.2 million¹
- ✓ Accelerating revenue growth amplified by the extended UK and NL lockdown

High Customer Retention

- ✓ 75% of revenue from existing customers in FY21
- ✓ A data-driven customer retention flywheel driving lifetime value

High Margins

- ✓ Adjusted EBITDA margin of 25.0% in line with medium term guidance
- ✓ Strong operating leverage driving £92.1 million Adjusted EBITDA

Robust Cash Generation

- ✓ Capex light and negative net working capital
- ✓ Operating Cash Conversion of 106%

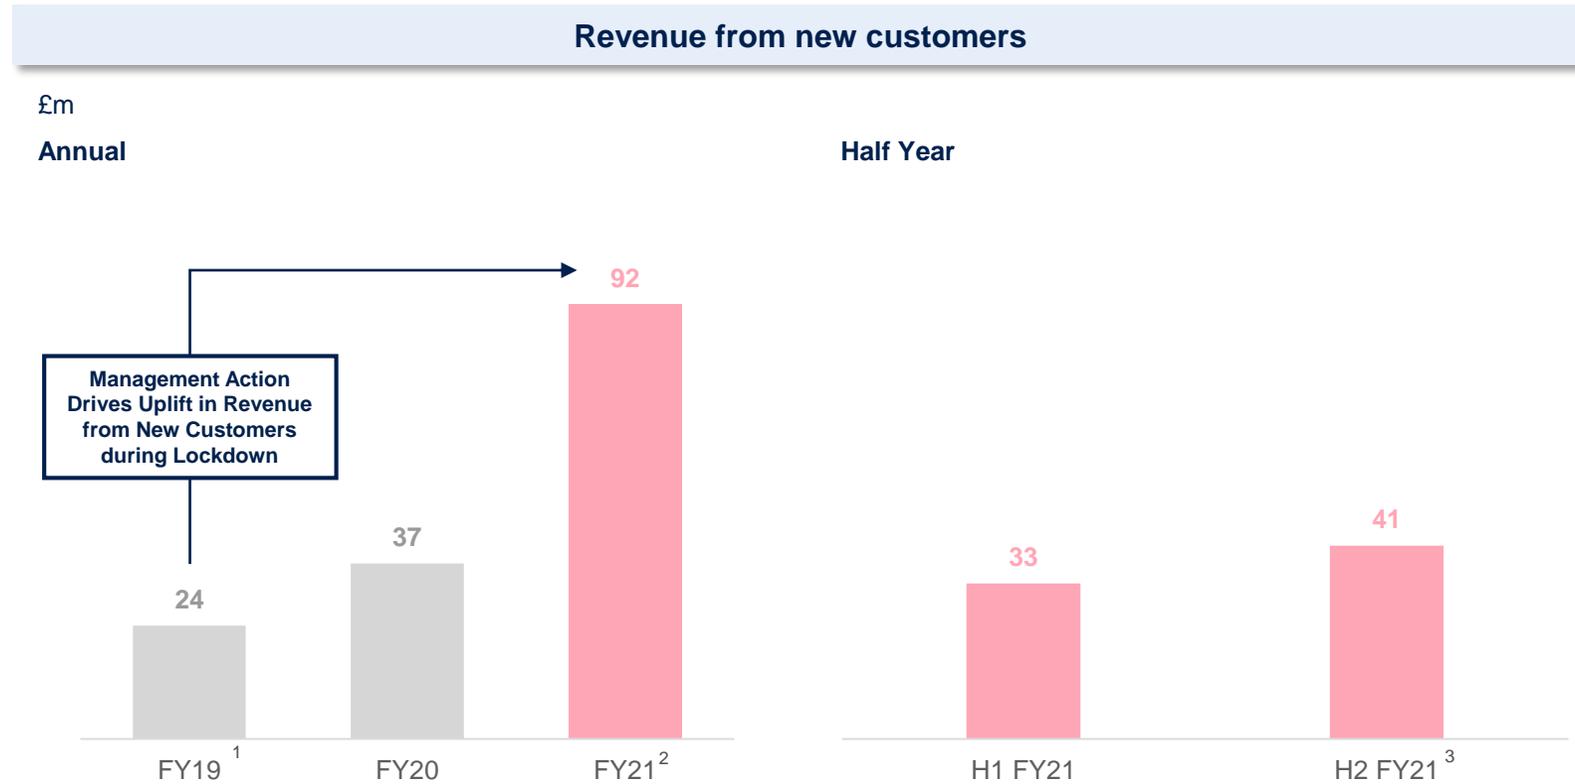

Underpinned by our data-driven customer retention model, which drives strong customer loyalty and lifetime value

Strong orders growth and re-investment of AOV growth

- **Orders increased by 109%**, driven by uplift in new customer acquisition and elevated purchase frequency during lockdown
- **Re-investment of the AOV growth** that was driven through increased attached gifting. We chose to increase promotional activity to drive customer behaviours that align with higher retention and frequency (e.g. reminder setting, app downloads)

Exceptional growth in revenue from new customers

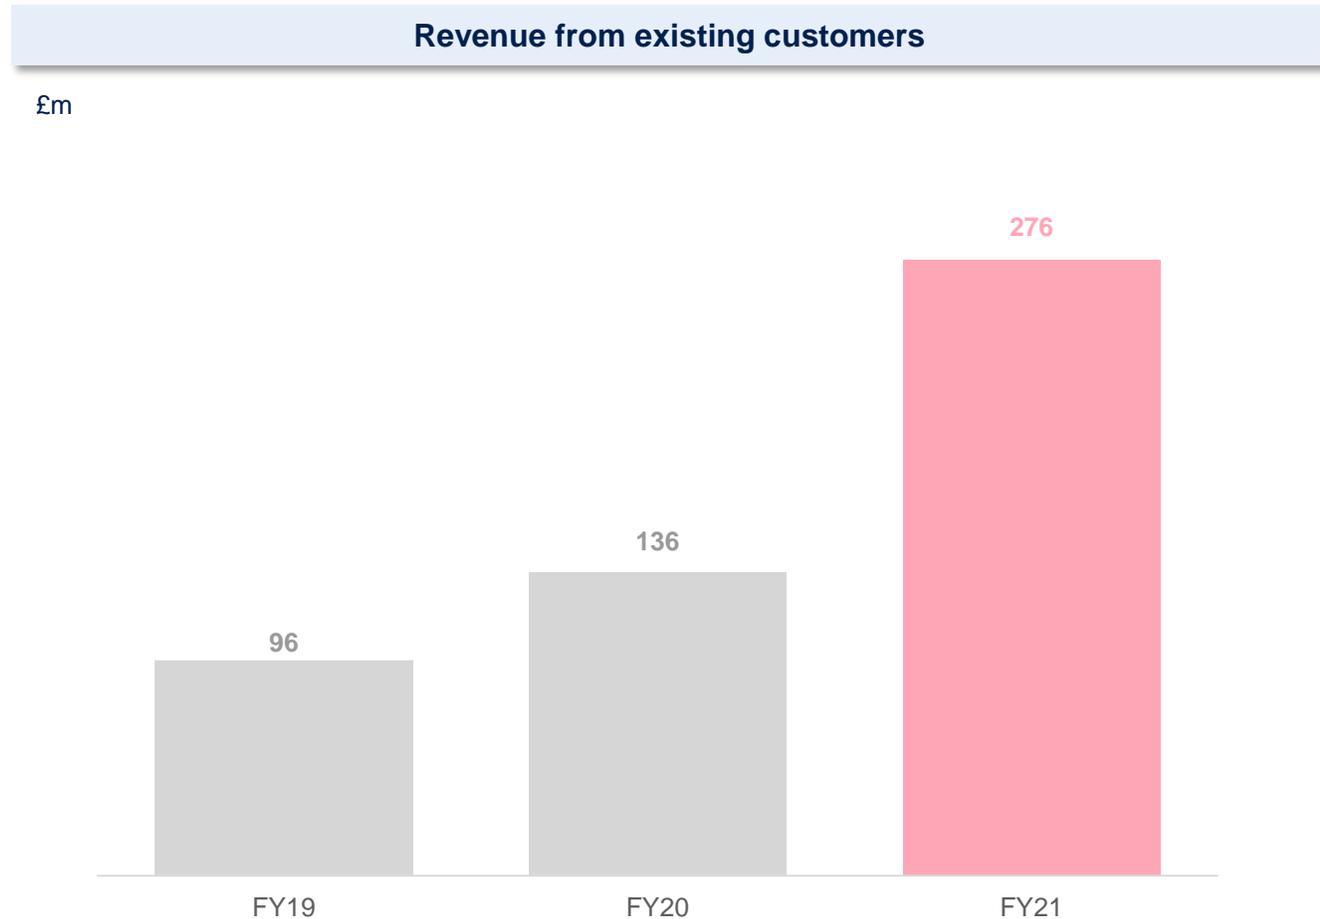

- **Significant uplift** in new customer acquisition during lockdown, from mid-March 2020 onwards (impacting FY20 and FY21)
- **Repeat behavior** of customers **acquired** during the past year is consistent with **historical cohorts**

Exceptional growth in new customers driven by management's actions to capture the opportunity during lockdown

Source: Company information

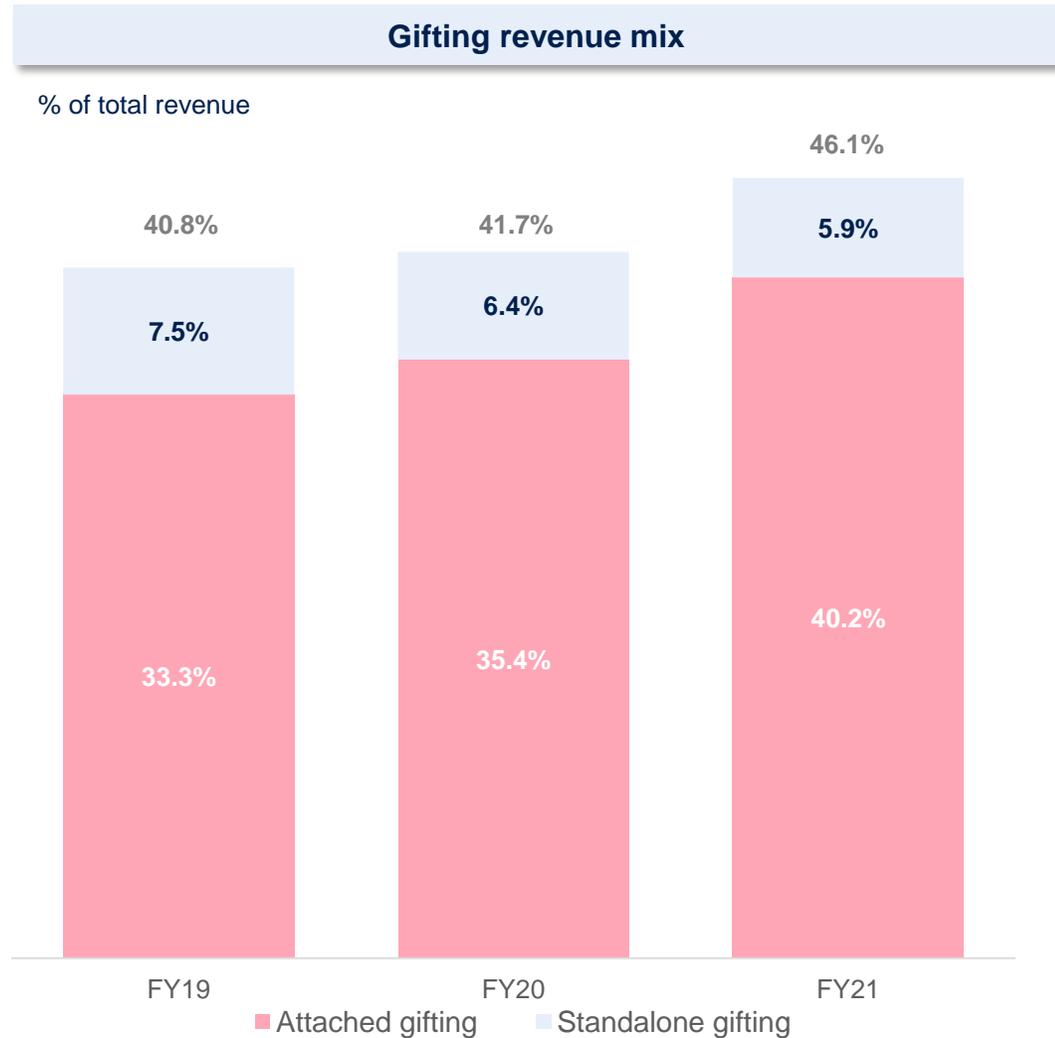

Notes: ¹ Greetz included from acquisition; September 2018 onwards ² FY21 contains revenue from customers acquired in both H1 FY21 and H2 FY21 ³ H2 FY21 revenue only from new customers acquired in H2 FY21.

Elevated frequency driving growth in revenue from existing customers

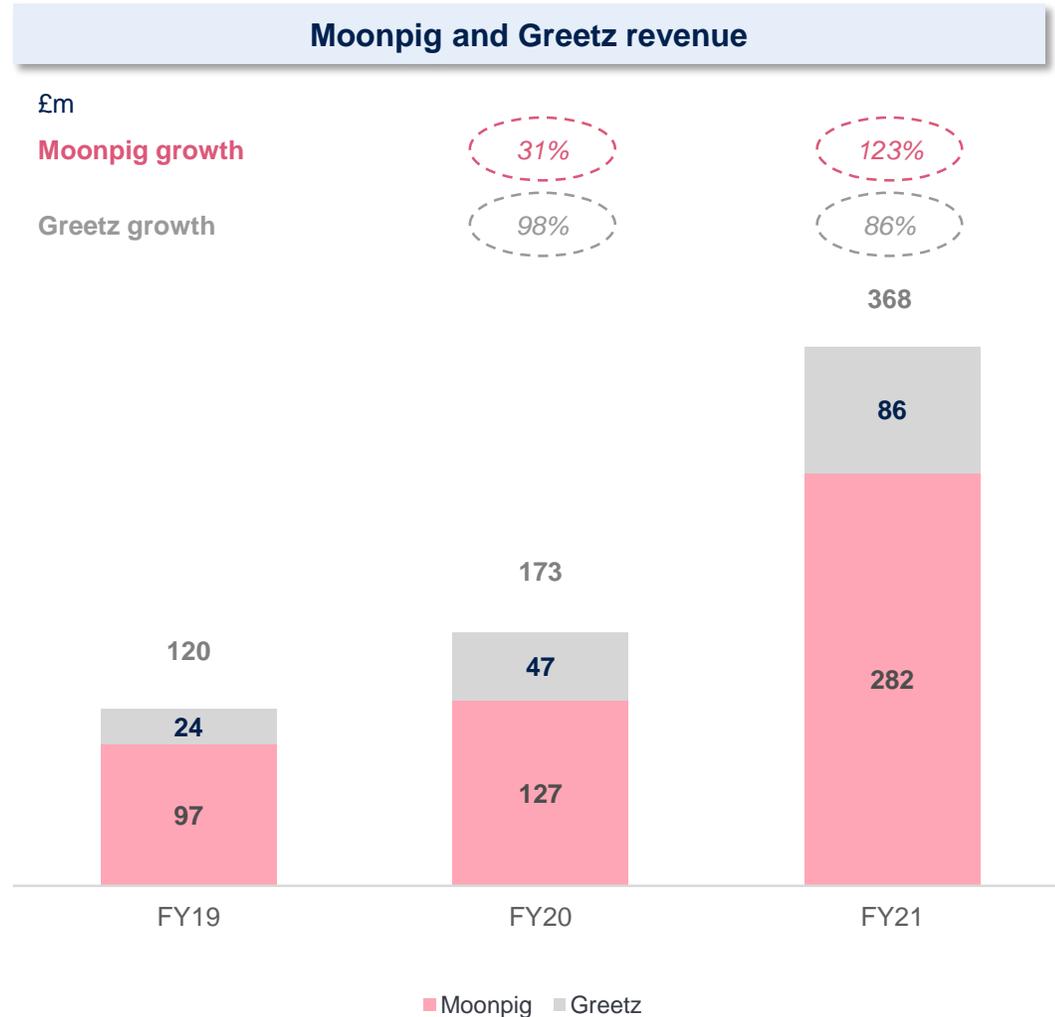

- Existing customer revenue increased due to **unusually elevated frequency**
- Underpinned by increased app penetration, contextual recommendations, reminder setting and targeted marketing

Delivering against the opportunity in gifting

- Attached gifting boosted by **temporary increase in proportion of orders sent direct** to recipient in lockdown
- Underlying increase in attached gifting revenue, reflecting management's ongoing actions in:
 - **Broadening merchandise** offering
 - **Optimising digital user** experience
 - Better leveraging data to **produce more personalised gifting** recommendations

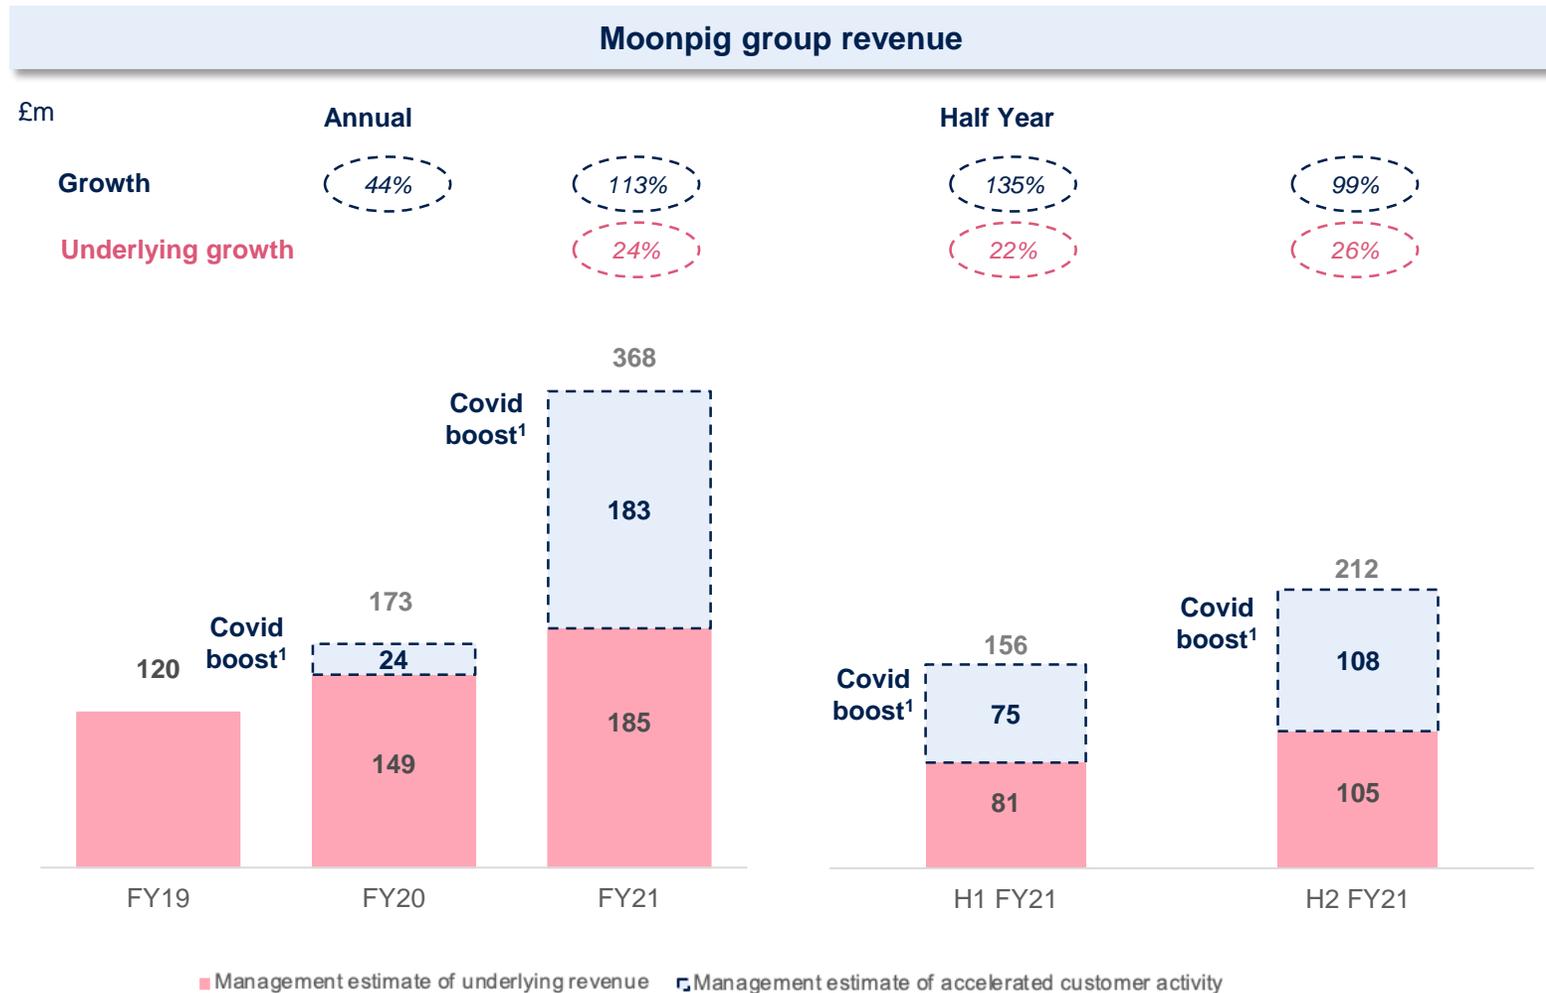

Exceptional revenue growth across both segments

- Group revenue increased by **113%** year on year
- Successful application of the **Moonpig strategy and operational playbook** to **Greetz** delivered **strong growth** across both brands
- **Stronger revenue growth at Moonpig** reflects the benefit from our **new technology and data platform**. Migration of Greetz to this platform is ongoing until the end of calendar 2022

Notes: Greetz acquired in August 2018 and included from acquisition, September 2018 onwards.

Continued double-digit underlying revenue growth

Drivers of Covid Boost

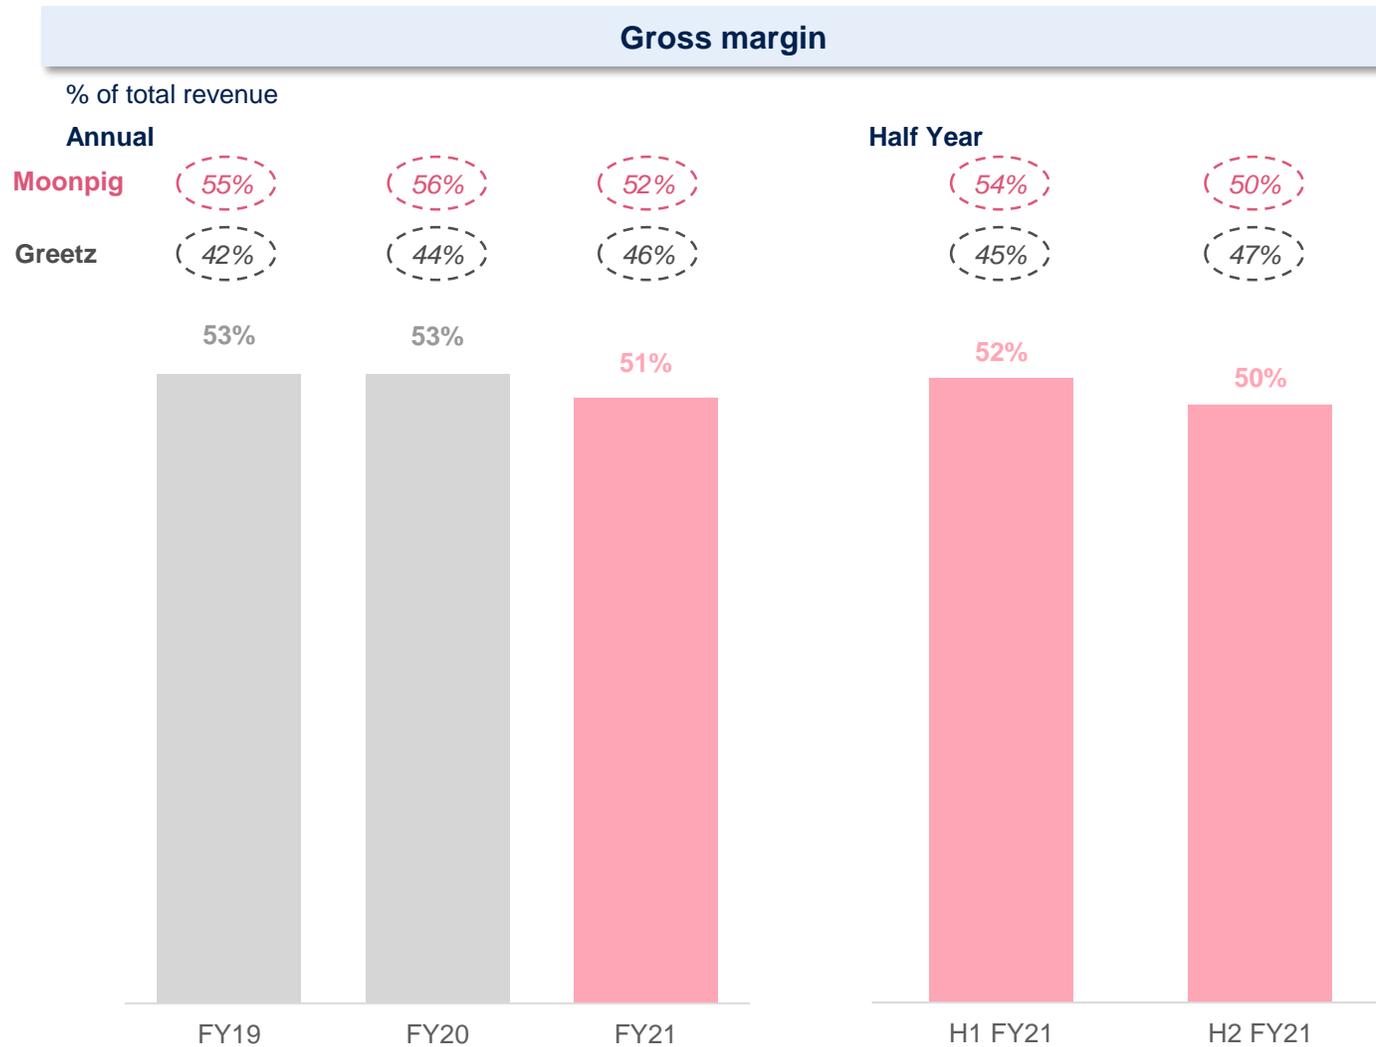

- Significant Uplift in New Customer Acquisition
- Significant Uplift in Existing Frequency

Anticipated Lasting Impact of Covid Boost

- Enlarged Customer Base
- Expected Frequency Uplift (c.5% by FY23)²
- Higher Adjusted EBITDA Margin (c. 24%-25%)³

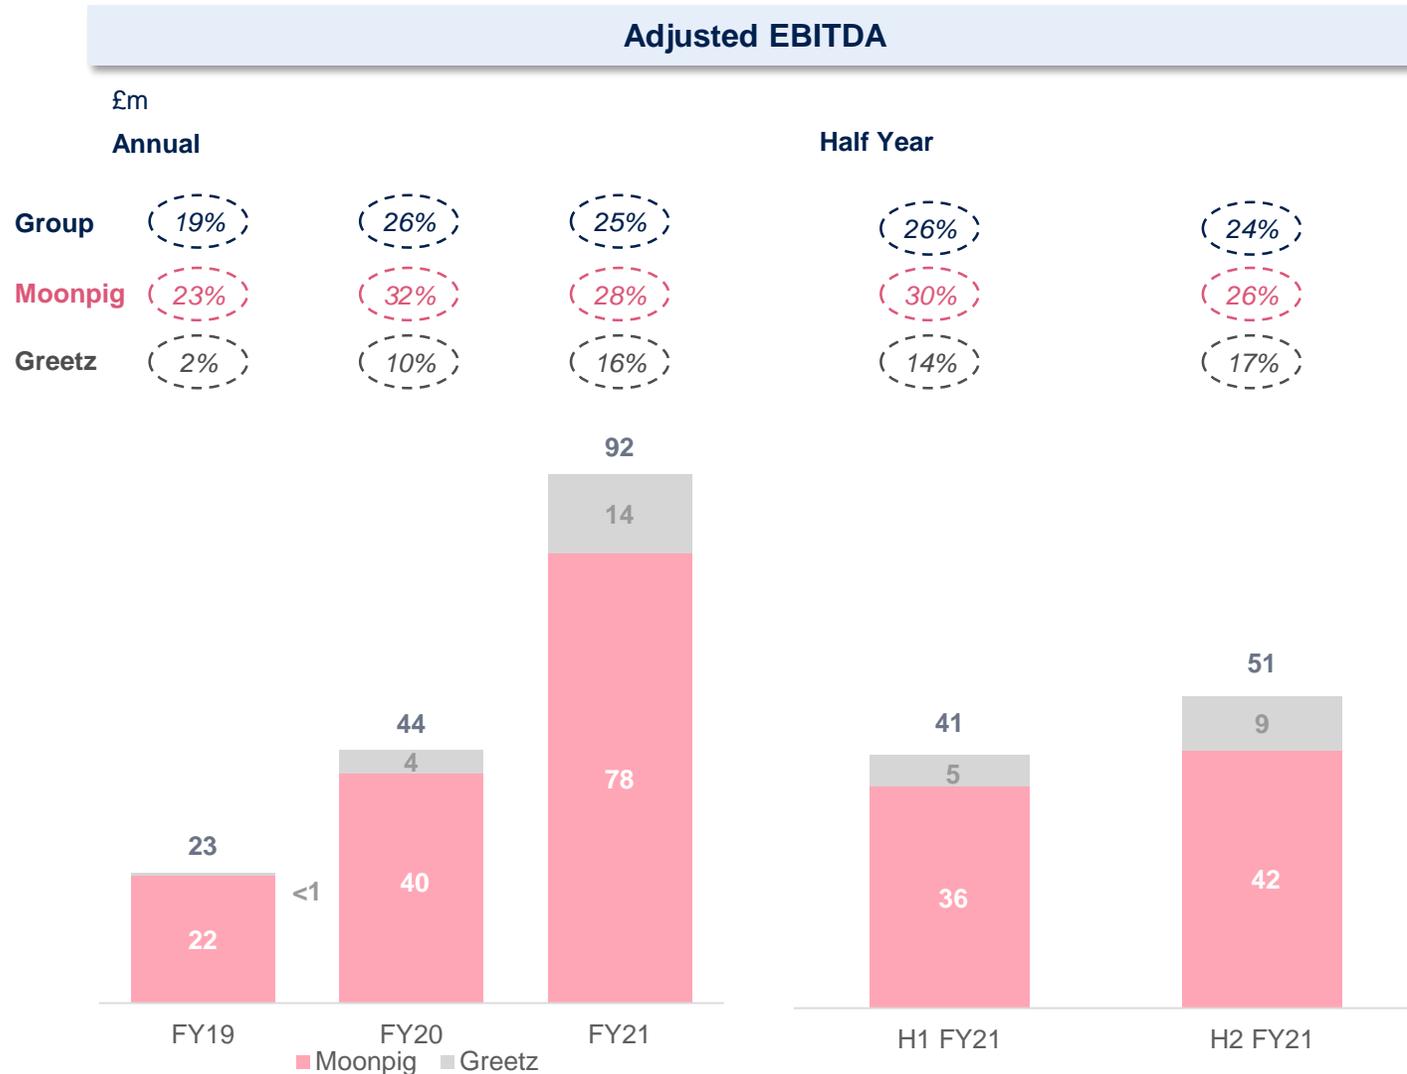

Notes: Greetz acquired in August 2018 and included from acquisition, September 2018 onwards. ¹ Underlying revenue and management estimates of accelerated customer activity as a result of COVID-19 / lockdowns are a management belief statement. ² Growth from FY19 ³ Medium term target

Gross profit margin reflective of investment and category mix

- Group gross profit increased by **103%** to £186m
- Group gross margin rate decreased to **51%**, driven by:
 - Growth in **attached gifting mix**
 - Moonpig **promotional activity** to drive app downloads and reminder setting
 - Increased **outsourced card fabrication**
- Greetz gross margin improved to **46%**, driven by strategic focus shift to prioritise **card growth, improved promotional discipline** and **operational efficiencies**

Adjusted EBITDA more than doubled year-on-year

- Adjusted EBITDA **+107%** driven by **revenue growth** and benefits from scale and historical investments to build operating leverage
- We chose to **prioritise market share capture** over short term profit margin rate with additional investment in:
 - Marketing** to drive new customer acquisition
 - Maintaining **operational resilience**
 - Promotional discounting** to drive app download and reminder setting

Note: Adjusted EBITDA is an Alternative Performance Measure. It is calculated as operating profit adding back depreciation and amortisation and adjusting items. Refer to the details set out in the Results Announcement for the year ended 30 April 2021, issued on 27 July 2021.

Strong operating cash flow and cash conversion

£m	2021	2020
Adjusted EBITDA	92.1	44.4
Less: Capital expenditure	(10.8)	(7.7)
Add back: (Increase) in inventories	(12.0)	(0.2)
Add back: (Increase) in trade and other receivables	(1.8)	(1.1)
Add back: Increase in trade and other payables	29.7	15.6
Operating cash flow	97.2	51.0
Operating cash conversion	106%	115%

Note: ¹ Operating cash conversion = operating cashflow/ Adjusted EBITDA

- Operating cash conversion remains strong at **+106%**
- Total capex £10.8m:
 - Ongoing development of our **proprietary technology platform**
 - Raising **production capacity** to meet elevated lockdown volumes
- Increase in inventory for temporary additional **resilience of supply** during lockdown and to **support gifting revenue growth**
- **1.25x** Net Debt / LTM Adjusted EBITDA at FY21, comfortably below guidance at IPO

Capital allocation priorities focus on investment in growth

Organic investment to drive growth

1

Marketing

- Customer acquisition
- Promotional activity for app downloads and reminder setting

Technology

- Data science capabilities
- In-house expertise and platform

Operations

- Enhance flexibility and scalability of production footprint

M&A

2

- **Relevant, value-accretive** M&A opportunities
- **Current markets** and in adjacent areas or technology that will **accelerate our medium-term goals**

Shareholder returns

3

- Do **not** intend to pay a **dividend** as we continue to invest in growth
- Will continue to evaluate dividend policy and shareholder returns over time

Capital allocation priorities remain unchanged

Current trading, outlook and guidance

Current Trading and Outlook

- The new financial year has started moderately ahead of expectations, consistent with the slower lifting of lockdown restrictions in the UK and the Netherlands
- As restrictions have eased, we have seen customer purchase frequency start to normalise from elevated levels, and we expect this to continue until frequency is c.5% ahead of pre-Covid-19 levels, in line with previous expectations
- Repeat behaviour of customers acquired during the past year is consistent with historical cohorts, hence we expect that there will be an enduring uplift in the scale of the business
- In line with our approach during the second half of FY21, we will continue to prioritise additional investments in marketing and market share capture over short term maximisation of profit margin rate

FY22 Guidance

- We now expect Group revenue in FY22 to be approximately £250m to £260m, implying 45% to 50% growth compared to FY20, and an underlying double-digit growth compared to FY21
- As previously stated, this represents a year-on-year decrease in headline revenue, reflecting normalisation of purchase frequency and a headwind from the large cohort of new customers following historical second year spending patterns

Medium Term Targets

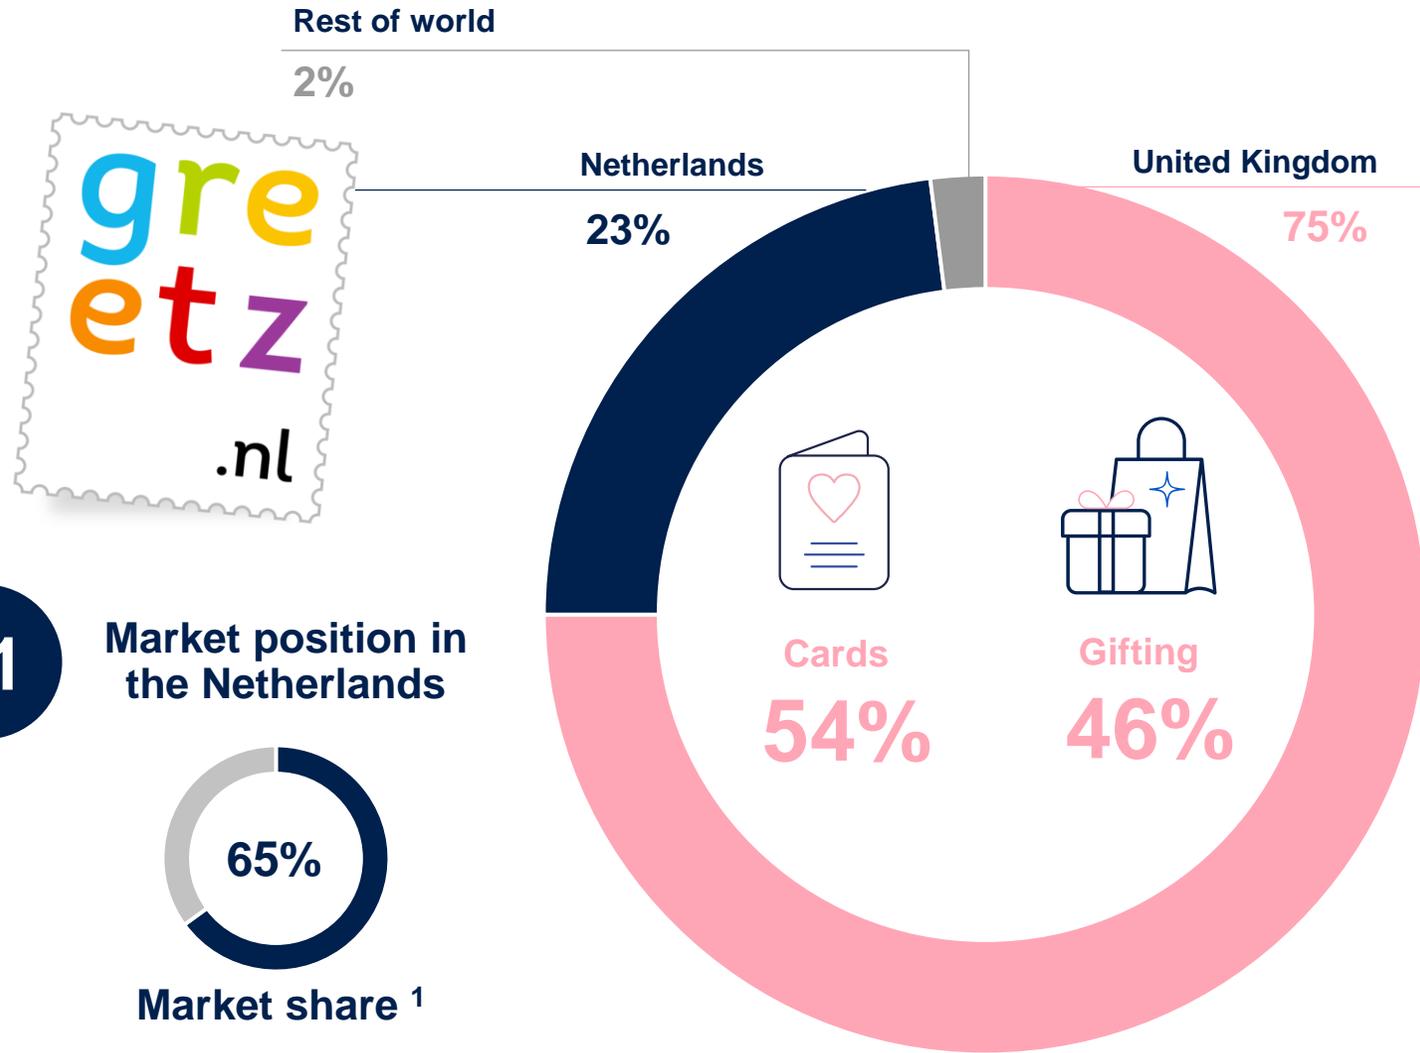

- We continue to target annual percentage revenue growth in the mid-teens in the medium term
- We continue to target an Adjusted EBITDA margin of c.24-25% in the medium term

Reminder collection

Customers are much more likely to set a reminder if:

- Information pre-filled
- Incentive is clear

We introduced a number of optimisations to:

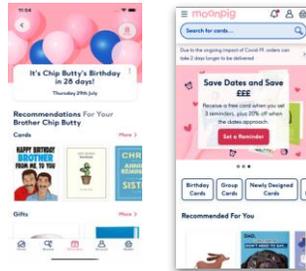

- 1 Make it as easy as possible to set a reminder in the purchase journey
- 2 Allow a customer to set an additional reminder in the purchase journey
- 3 Set a reminder post purchase if they chose not to do so earlier

Personalisation

Our reminder landing pages recommended relevant cards & gifts in one place

By tailoring the results to the relationship & occasion this feature makes reminders even more valuable to customers

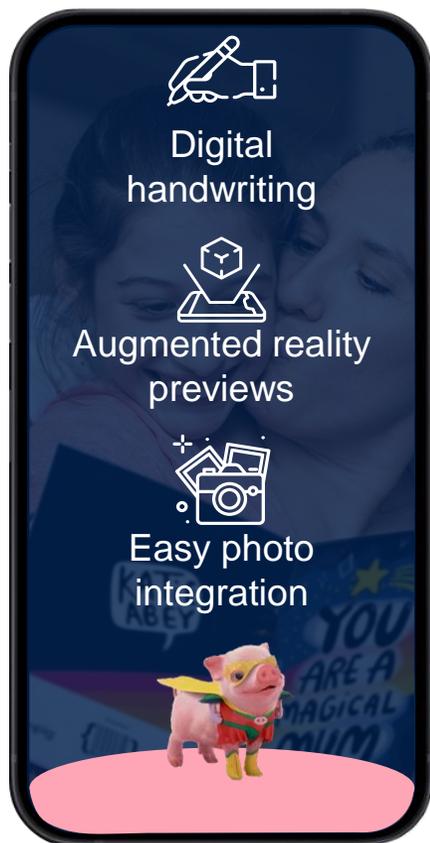

Recommended For You is a new algorithm which takes the cards you have purchased from us 12 months before and recommends similar cards for your occasion this year
